

Ravenshaw University

NOTICE

13 August 2010

Earn while you Learn

It has been decided that bonafide students of Ravenshaw University will be encouraged to work as computer assistants and in other areas such as receptions, accounts, guest relations and the like in respective Departments and Schools, as well as University office. They will be remunerated at a moderate scale for the job rendered. The work will be done ordinarily in the off hours so that the students compromise with their study hours in the least.

Students are therefore requested to write to the Registrar, Ravenshaw University, in the email ID: smarapriyamishra57@gmail.com indicating their (a) name, (b) class, (c) cell number, (d) particulars of skill, such as computer application, typing and the like, and (e) experience if any. This will lead to maintenance of a database of employable students from which they will be utilized as per need. The data will be revised every year to take into account the new entrants.

The Applications for this year should come by 31st August 2010.
